Monthly Notifications Register

Notifications registered at CCMC from 2010-05-01 to 2010-05-31

Sector A : SERVICES

Register issued on : 2010-06-04

Subsector A03: POSTAL SERVICES

Subsector : A03 **Registration Date :** 2010-05-24
Organization : SUTN
Country : Slovakia
Project ID : 88000110/0001 **Project Established**
ICS : 03.220, 55.040
National Ref : STN 88 5401/Z2
Title : Covers and forms for mail item. Correspondence envelopes
Scope : The main reason for amendment is to eliminate pre-print frame for postcode from address side of envelope, postcard picture, postcard, that cause difficulty with automated operation of the mail items. The amendment follows STN 88 5420/A2 Covers and forms for mail item. Postcards and picture postcards. Amendment 2

Relatedness :

National : REV/AMD STN 88 5401

Subsector : A03 **Registration Date :** 2010-05-24
Organization : SUTN
Country : Slovakia
Project ID : 88000210/0001 **Project Established**
ICS : 03.220, 55.040
National Ref : STN 88 5420/Z2
Title : Covers and forms for mail item. Postcards and picture postcards

** End of Subsector **

Subsector A99: UNDETERMINED.

Subsector : A99 **Registration Date :** 2010-05-13
Organization : UNI
Country : Italy
Project ID : 09100820/0001 **Published Standard**
ICS : 91.100.50, 93.080.20
National Ref : E09100820
Title : Bitumen and bituminous binders - Paving grade bitumen mainly used in Italy
Scope : The Technical Report provides a guide line with the complementary information on the grade selection for the Italian market, according to the UNI EN 12591:2009.

Relatedness :

National : New

Subsector : A99 **Registration Date :** 2010-05-13
Organization : UNI
Country : Italy
Project ID : 09100830/0001 **Project Established**
ICS : 91.100.50, 93.080.20

National Ref : E09100830
Title : Bitumen and bituminous binders - Guidelines for specifying cationic bituminous emulsions mainly used in Italy
Scope : The Technical Report provides the properties and relevant test methods for cationic bituminous emulsions produced and utilized in Italy, according to the UNI EN 13808:2005.

Relatedness :

National : New

Subsector : A99 **Registration Date :** 2010-05-13

Organization : UNI

Country : Italy

Project ID : 17030830/0001 **Project Established**

ICS : 03.080.30

National Ref : E17030830

Title : Services - Residential service for elder people - Service requirements

Scope : The standards describes service requirements for elder people.

Relatedness :

National : REV/AMD UNI 10881:2000

Subsector : A99 **Registration Date :** 2010-05-20

Organization : UNI

Country : Italy

Project ID : 83000750/0001 **Project Established**

ICS : 03.080.01, 03.100.30, 03.100.40

National Ref : U83000750

Title : Management activities in services supply processes - Method of time survey to evaluate the resources necessary to carry out the processes

Scope : The document gives a method to detect the processing times in order to allow a correct estimation of information technology, human and organization resources needed in operational and management activities that compose company processes. This document is applicable to operational activities with a high human content: front-office, back-office, administrative activities, document management. This document is applicable to organizations working in services area, e.g. banks, insurances, logistics, post, utilities (telecommunications, energy, gas, water supply), public administration. It is mainly applicable to organizations working in: Planning, Organization, Operational management.

Notifications registered at CCMC from 2010-05-01 to 2010-05-31

Sector B : BUILDING AND CONSTRUCTION

Register issued on : 2010-06-04

Subsector B01: FIRE PROTECTION.

Subsector : B01 **Registration Date :** 2010-05-12
Organization : ASI
Country : Austria
Project ID : 00023281/0001 **Project Established**
ICS : 13.220.20, 13.320
National Ref : ÖNORM F 3051
Title : Fire detection and fire alarm systems - Interpretation unit for alarm transmission systems
Scope : This ÖNORM defines requirements for the interpretation unit for alarm transmission systems.

Relatedness :

National : New

Subsector : B01 **Registration Date :** 2010-05-12
Organization : DIN
Country : Germany
Project ID : 03100747/0001 **Project Established**
ICS :
National Ref : 03100747
Title : Smoke alarm devices for use in residential buildings, apartments and rooms with similar purposes - Installation, use and maintenance

Relatedness :

National : New

Subsector : B01 **Registration Date :** 2010-05-11
Organization : NEN
Country : Netherlands
Project ID : 50001562/0001 **Project Established**
ICS : 13.220.50
National Ref : NEN 6075:2010 Concept nl
Title : Determination of the resistance to smoke movement between spaces
Scope : Determination of the resistance to smoke movement of partitions. Application: all partition walls

Relatedness :

National : New

Subsector : B01 **Registration Date :** 2010-05-20
Organization : UNI
Country : Italy
Project ID : 70001412/0001 **Project Established**
ICS : 13.220.20, 23.120
National Ref : U70001412
Title : Smoke and heat control systems - Part 2: Design, installation and maintenance for powered smoke and heat exhaust ventilators
Scope : This standard gives the criteria for design, installation and maintenance for powered Smoke and Heat Exhaust Ventilation Systems (SEFFC) in case of fire.

Relatedness :

National : REV/AMD UNI 9494:2007

Subsector : B01 Registration Date : 2010-05-13
Organization : UNI
Country : Italy
Project ID : 70001520/0001 Project Established
ICS : 13.220.20
National Ref : U70001520
Title : Pumpset for fire fighting systems - Additional provision for the application of EN 12845
Scope : This technical report specifies additional provision for the application of EN 12845, with regard to: water supply (clause 9 of EN 12845); pumps (clause 10 of EN 12845).

Relatedness :

National : New

Subsector : B01 Registration Date : 2010-05-13

** End of Subsector **

Subsector B17: LIGHTING EQUIPMENT AND LIGHTING APPLICATION TECHNOLOGY.

Subsector : B17 Registration Date : 2010-05-04
Organization : BSI
Country : United Kingdom
Project ID : 01001262/0001 Project Established
ICS :
National Ref : BS 5266-1
Title : Emergency lighting. Part 1. Code of practice for the emergency lighting of premises
Relatedness :
National : New

Subsector : B17 Registration Date : 2010-05-13
Organization : UNI
Country : Italy
Project ID : 29000420/0001 Project Established
ICS : 93.080.40
National Ref : U29000420
Title : Road lighting - Selection of lighting classes
Scope : This standard determines the lighting classes necessary to apply the performance requirements of UNI EN 13201-2 for assuring lighting conditions suited for traffic safety and gives recommendations to obtain energy saving and to optimize lighting plants and as regards reduction of environmental impact.
Relatedness :
National : REV/AMD UNI 11248:2007

Subsector : B17 Registration Date : 2010-05-20
Organization : UNI
Country : Italy
Project ID : 29000430/0001 Project Established
ICS : 93.080.40
National Ref : U29000430
Title : Light and lighting - Use of luminous flux controllers in road lighting
Scope : This standard gives information for using luminous flux controllers in road lighting systems when the UNI EN 13201-2 lighting classes are adopted and it describes methods to verify the energy saving their use can produce. The standard defines: parameters to characterize limits and operating conditions of luminaires, when supplied with a luminous flux controller; performance parameters of luminous flux controllers useful to define their conditions in road lighting applications; typical control cycles to evaluate, during the design of a lighting system, the obtainable energy saving if a luminous flux controller is installed. For every parameter the standard gives conditions for its measurement. The standard does not give information about the quality of a device or of a product technology or on pro and contra of a specify control strategy for a given application. This standard can be applied on new lighting systems or, with specific remarks, on existing lighting systems when luminous flux controllers are installed.

Title : Testing methods for beer – Part 12: Determination of protein

Scope : Nitrogen compounds in the malt used depends on the quality of barley, respectively. protein content. In addition to determining the total malt protein (or protein) is an important value of soluble nitrogen compounds, which will go into solution at mashing. Their value points to measure proteolytic cleavage of high nitrogen compounds during malting. Quantity and quality of soluble nitrogen compounds is of great importance in the technology affects the quality of beer.

 National Ref : ÖNORM S 1100-1
 Title : Laser safety officer - Part 1: Responsibilities and competences
 Scope : This ÖNORM complements the provisions on laser safety presented in ÖVE/ÖNORM EN 60825 (all parts) by determining the procedures for preventive measures and for managing laser accidents and by defining the competence of those, who are working with laser equipment and responsible for laser safety, especially of the laser safety officer. The recommendations provided by CLC/TR 50448 are considered. This ÖNORM supports organizations operating laser equipments by providing an organizational structure for the implementation and maintenance of effective monitoring procedures stipulated eg in ÖVE/ÖNORM EN 60825-1. Furthermore is has to be ensured, that persons using, or testing laser equipment and are responsible for laser safety have the necessary know-how, understanding and opportunity to perform their task without exposing themselves or other to unnecessary health risks. This ÖNORM determines the responsibility of the employer in respect to laser safety, set up a system of safety measures to fulfill the requirements on organizations using laser equipment and defines the minimum requirements on the qualification.

Title : Planar scintigraphy and single photon emission computed tomography - Constancy tests of functional performance characteristics

Scope : This ÖNORM applies for Anger type gamma cameras (including gamma cameras with multiple measuring heads) used for planar scintigraphy and/or single photon emission computed tomography (SPECT). This ÖNORM includes requirements on the test devices and software to be used as well as provides guidance for the constancy testing. The purpose of this ÖNORM is to provide simple procedures for the constancy tests to be performed by the user with tools and facilities which are as simple as possible. The precondition for the constancy tests are reference measurements done right after the acceptance test or partial acceptance test. The reference measurements and measurements for constancy tests have to be performed under the same conditions and have to be documented.

National Ref : ÖNORM S 5275-2

Title : Nuclear medical therapy - Criterias for the discharge - Part 2: Calculation method taking into account complex conditions

Scope : For the calculation of the discharge activity of the patient treated with open radioactive sources and depending on the type of radiation the exposition to environment through external radiation and/or possible radioactive contamination (mainly by air) has to be

Scope : considered. For the assessment of radiation exposure to the environment the constant of the ambient dose rate equivalent has to be used as the basis. In this part 2 of the ÖNORM a more complex calculation method is introduced with which more precise discharge activities can be calculated than in ÖNORM S 5275-1. The precondition is the knowledge of further factors, e.g. biokinetics, distribution of the activity in the body, possible contamination of the tidal air. In this ÖNORM only the nuclides ^{117m}Sn, ¹³¹I, ¹⁵³Sm, ¹⁸⁶Re und ¹⁸⁸Re are considered. The reason the limitation to these five nuclides is because the simplified calculation method in part 1 for other nuclides provides maximum permissible discharge activities which are already above the applied activities used in practice. This ÖNORM specifies criteria for the patient discharge after the application of open radioactive sources for therapeutically purposes (e.g. radioiodine therapy, palliative therapy, radiosynoviorthesis) knowing factors, which are not considered in part 1.

Organization : AENOR
Country : Spain
Project ID : P0035660/0001 **Project Established**
ICS :
National Ref : PNE 62352:1999/1M
Title : Steel storage tanks for carburant and combustible liquids. Above ground parallelepipedical tanks with capacity up to 2000 litres.

Scope : This standard modifies the clause 6.3 in order to include a nozzle in the bottom of the tank for emergency situations.

Relatedness :

National : REV/AMD UNE 62352:1999

** End of Subsector **

Subsector T14: PACKAGING.

Subsector : T14 **Registration Date :** 2010-05-12
Organization : DIN
Country : Germany
Project ID : 11500836/0001 **Project Established**
ICS :
National Ref : 11500836
Title : Oxygen scavengers for packaging applications - Part 1: Determination of capacity

Relatedness :

National : New

Subsector : T14 **Registration Date :** 2010-05-12
Organization : DIN
Country : Germany
Project ID : 11500837/0001 **Project Established**
ICS :
National Ref : 11500837
Title : Packaging - Boxes manufactured from solid fibre-board or corrugated board - Part 1: For cylindrical aluminium tubes

Relatedness :

National : New

Subsector : T14 **Registration Date :** 2010-05-12
Organization : DIN
Country : Germany
Project ID : 11500838/0001 **Project Established**
ICS :
National Ref : 11500838
Title : Packaging - Boxes made from solid fibre-board or corrugated board - Part 2: For conical aluminium tubes

Relatedness :

National : New

** End of Subsector **

Subsector T19: ROAD SAFETY.

Subsector : T19 **Registration Date :** 2010-05-31
Organization : AENOR
Country : Spain
Project ID : P0035620/0001 **Project Established**
ICS :

National Ref : PNE 135314
Title : Vertical signs. Galvanized steel profiles used as posts of the signs, side posters and directional signs. Screw products. Characteristics and test methods.
Scope : This standard revises a previous one which specifies the characteristics and test methods of galvanized steel screw and beams used as post of the signs, side posters and directional signs.

Relatedness :

National : REV/AMD UNE 135314:2009

Subsector : T19 **Registration Date :** 2010-05-31
Organization : AENOR
Country : Spain
Project ID : P0035621/0001 **Project Established**
ICS :
National Ref : PNE 135331
Title : Vertical signs. Fixed metallic vertical road traffic signs. Non retroreflective area. Paints. Characteristics and test methods.
Scope : This standard revises a previous one which specifies the characteristics and test methods for the non retroreflective painted area of the fixed metallic vertical road traffic signs

Relatedness :

National : REV/AMD UNE 135331:2004, UNE 135331:2004 ERRATUM:2006

Subsector : T19 **Registration Date :** 2010-05-31
Organization : AENOR
Country : Spain
Project ID : P0035622/0001 **Project Established**
ICS :
National Ref : PNE 135362-1
Title : Vertical signs. Road delineators. Part 1: Polychloride vinyl sign post. Characteristics, dimensions and test methods.
Scope : This standard revises a previous one which defines some characteristics, dimensions and test methods for the road delineators made of rigid PVC.

Relatedness :

National : REV/AMD UNE 135362:1994 EX
